

# FACE/OBJECT TRACKING

[www.aicuda.world](http://www.aicuda.world)

The Vaidio AI Vision Platform delivers video analytics solutions for Security, Safety, Access Control and Social Health Screening. Vaidio's advanced AI makes video monitoring, security alerts, health screening and forensic investigation more accurate, more automated, and more affordable - and helps make your business safer and more secure.

Vaidio's AI Tracking function locates faces and/or objects across multiple cameras and connects them linearly on a map for easy tracking. By setting the alert rule, the user can receive notifications from Vaidio in real time and immediately pinpoint the location of the detected event on the map.

## FEATURES

- ❑ Utilize multiple cameras to track location of target faces and objects
- ❑ Track wherever cameras are placed, indoors or outdoors
- ❑ Search indoor events in different floor plans
- ❑ Support multiple floor plans at one GPS location
- ❑ Upload and manage indoor maps
- ❑ Map out traffic flow & extract patterns
- ❑ Combine with LPR, Face Recognition, Wrong Direction, Loitering, Illegal-Parking Detection, and other AI functions

## BENEFITS

- ❑ Use for campus and building security
- ❑ Enable fast response time
- ❑ Perform accurately across multiple cameras
- ❑ Save money on extra camera resources by enabling Tracking once the main functions have been set up
- ❑ Obtain high-performance in nighttime and poor weather conditions
- ❑ Extract traffic data of intersections: e.g., streets with high number of cars, trucks, or pedestrians
- ❑ Improve traffic monitoring, traffic light, road sign, and road maintenance plans
- ❑ Find lost pets
- ❑ Locate crime suspects

## About Aicuda Technology

The Aicuda Vaidio™ AI Vision Platform orchestrates multiple AI video analytics engines to provide higher accuracy and lower total costs across the industry's broadest array of video analytics. Vaidio solutions are deployed by government organizations, airport and maritime authorities, defense departments, schools and campuses, manufacturing and healthcare facilities and other critical infrastructure organizations across the globe to rapidly detect, track, identify, search, and view thousands of objects and receive real-time notifications of critical events. Aicuda's patented self-learning video analytics software seamlessly integrates with a large variety of 3rd party products. Aicuda sales and engineering teams are strategically located to provide services and support to customers around the world.
