

# LIVE VIEW

[www.aicuda.world](http://www.aicuda.world)

The Vaidio Video Intelligence Platform delivers video analytics solutions for Security, Safety, Access Control and Social Health Screening. Vaidio's 4th generation AI makes video monitoring, security alerts, health screening and forensic investigation more accurate, more automated, and more affordable - and helps make your business safer and more secure.

Vaidio's Live View function enables the user to add multiple cameras and monitor the events live on the same screen. The users can adjust the size and location of the scenes to create the preferred viewing layout or apply the pre-set format for the live view

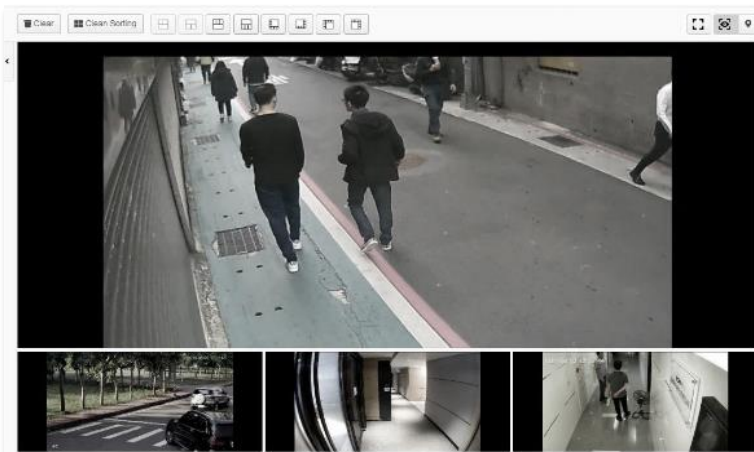

## FEATURES

- ❑ Utilize function within Vaidio user interface, no need to install other software to implement video wall
- ❑ Enable viewing multiple scenes of cameras on the same screen
- ❑ Choose between multiple pre-set formats for different viewing layouts
- ❑ Enable drag-and-drop to add any live scenes from cameras
- ❑ Adjust view size and location in the viewing layout
- ❑ Click the Full Screen icon to hide the tool bar and implement the full screen mode
- ❑ View the live scenes on the map with the exact locations of the cameras
- ❑ Use AI-software based virtual PTZ track and zoom

## BENEFITS

- ❑ Customize video wall to fit needs
- ❑ Save money from having to buy separate function/system for live view feature
- ❑ Add unlimited amount of cameras (views) to the wall
- ❑ Integrate with nearly all ONVIF IP cameras
- ❑ Turn on live tracking on any activated people/vehicle counting cameras to track objects with the click of a button
- ❑ Select target on live tracking
- ❑ Facilitate tracking with auto-zoom
