

Artificial Intelligence Weapon Detection

Next generation artificial intelligence weapon detection

Aicuda's Vaidio™ productline is ideal for detecting weapons like guns, rifles and knives automatically in real-time with artificial intelligence powered technology and triggers an alarm when a weapon enters the camera's field of view. In combination with Aicuda face recognition technology it is possible to indentify the criminal and immediately respond to a dangerous situation. Intelligent gun detection is valuable in providing active shooter detection warnings before the actual shooting incidents occur. It can help prevent violent crime before it happens.

Vaidio 100 Series SMB

Intelligent appliance for small-and-medium sized video surveillance deployments. Reliable and easy to set up. It is the ideal solution for customers requiring a cost-effective solution. The Vaidio search engine is intuitive and based on easy-to-use natural language interface.

Vaidio VSB 110 / 130

Highlights

- Excellent value for an intelligent surveillance appliance
- Vaidio solutions are trained, not programmed
- Significant time and cost savings
- Out of the box solution
- 2 year warranty on hardware / 1 year software maintenance
- Supports all ONVIF devices

Ideal for:

- Small-sized installations: gas stations, hotels, retail stores

Simple configuration and management

The open architecture technology of the Vaidio Series makes it easy to integrate with 3rd party hard- and software products. Connect to surveillance cameras for live streaming or to NVR or DVR for playback. Meta data is extracted from video files and stored on the Vaidio appliance for fast video search and review.

Vaidio 500 Series Enterprise

Intelligent appliance ideal for mid-sized as well as large-sized video surveillance installations. Reliable, cost-effective and easy to deploy and maintain. Powerful solution for the most demanding artificial intelligence tasks.

There are 4 enterprise models available. Vaidio VSB 510 is offered with a single NVIDIA 8GB High Performance GPU. Vaidio VSB 530 and 550 are equipped with a dual NVIDIA 8GB High Performance GPU. Vaidio VSB 570 is offered with a dual NVIDIA 16GB High Performance GPU.

Vaidio VSB 510 / 530 / 550 / 570

📍 Highlights

- High-performance intelligent appliance
- Up to 128 channels
- Vaidio solutions are trained, not programmed
- Out of the box solution
- 2 year warranty on hardware / 1 year software maintenance
- Supports all ONVIF devices

Ideal for:

- Mid-sized installations: apartment complex, corporate facilities, supermarkets
- Large-sized installations: airports, banks, casinos, city surveillance, entertainment venues, national landmarks, public facilities, schools, shopping centers, theme parks, tourist attractions

Key Functions

Aicuda's Vaidio Series patented technology can track violent threats in real time, actively find their locations and provide alerts and updates to police and security officers via e-mail, mobile app or smart integration with 3rd party VMS.

Features

Artificial Intelligence	Intelligent detection of hand gun, shot gun, rifle, assault rifle, machine gun and knife when it appears in the video footage from recorders or directly from the cameras. Provide critical video images to handle active shooter events in real-time.
Alert	Detect weapons in real-time from multiple camera live streams and send alerts via smart phone, e-mail or integration with 3rd party VMS or sensor system. Simple-to-use Graphic User Interface (GUI) for alert generation. Aicuda mobile App support for smart phones (iPhone and Android) to enable detection and manage alerts.
Integration	Support live streams from all ONVIF IP-based cameras. Works as a stand-alone appliance or integrate with 3rd party VMS or sensor system to increase the range of alert actions (lockdown, lighting, siren). Compatible with cameras like Axis, Bosch, Hanwha, Mobotix, Sony and others. Compatible with leading VMS like Axonsoft, Digifort, Genetec, ISS, Milestone, Qognify and others.

Deep Learning Technology

Surveillance is a repetitive and mundane task. This may cause performance dips for human beings. Aicuda Technology is developing AI solutions based on deep learning to let the technology do the surveillance for us.

Customer pain points

- Inability to perform object and person search in recorded video files from multiple sources like surveillance camera, internet or smartphone.
- Option for fast, real-time search for hundreds of object types is not available.
- Accidental elimination or overlooking of key video events due to human errors.
- High false alarm rates due to the inability to distinguish different object types in legacy sensor-based systems.
- Unavailability of an all-in-one solution that is able to support video search, face recognition, intrusion detection, weapon detection and real time alerts with a high accuracy rate.

Aicuda Vaidio benefits for the customer

Aicuda Vaidio intelligent weapon detection is the industry's first artificial intelligence solution with a simple and easy user interface. The intelligent software eliminates the need to manually inspect hours of video for objects or persons of interest. The Vaidio series seamlessly transforms video into actionable intelligence.

- **All-in-One Solution**

Supports multiple functions like video search, face search and face recognition, fire detection, intrusion detection, license plate recognition, and weapon detection.

- **Ability to learn**

Platform is able to learn from experience using a multi-layer neural network. It is trained to recognize items and patterns, not programmed.

- **Intuitive, easy-to-use interface**

Google-like search engine and intuitive result display based on easy-to-use natural language interface.

- **Plug-and-play**

Out of the box ready to use artificial intelligence solution with pretrained self learning artificial intelligence models.

- **Partner Proven**

Fully compatible with ONVIF IP cameras like Axis, Bosch, Hanwha, Mobotix, Sony and others. Compatible with leading VMS, including Axxonsoft, Digifort, Genetec, ISS, Milestone, Qognify and others.

- **Significant increase in productivity**

Rapidly pinpoint persons and objects of interest. Review hours of video in minutes.

- * For every camera channel with Aicuda Technology Video Analytics, Video Search is automatically included.
- * People Counting includes people counting, person reverse direction movement, person fall / crouch and loitering detection.
- * Vehicle Counting includes vehicle counting, vehicle reverse direction movement and illegal parking detection.
- * Design and specifications are subject to change without notice.
